## 2 ORDERING PROCESS

The State Communications Officer is responsible for the purchase and maintenance of all radio equipment and accessories.

Approved equipment, as shown in this document, needs to be purchased to join the St John Communications Network (*see below - Equipment Purchase Request*). The State Communications Officer should be consulted before any plans are made for the purchase of equipment. Any purchase must also obtain the necessary approvals from the relevant Divisional, Regional and State Finance Committees.

All purchases over \$500 will need a Capital Expenditure application completed and submitted with the equipment purchase request.

Some Divisions have purchased equipment without proper consultation, only to find that it is not suitable for their needs, or it will not function correctly on the network.

Please note that all prices quoted in this document are excluding GST.
